

Mahmoud Ramadan Abbas

Backend Software Developer

Matay, Minya, Egypt • +20 102 434 8948 • mahmoodrabass@gmail.com • [GitHub](#) • [LinkedIn](#) • [Portfolio](#)

PROFESSIONAL SUMMARY

A Full-Stack Software Developer with hands-on experience building scalable backend services, RESTful APIs, and modern web applications. Good in Go, Node.js, Laravel, Django, React, Next.js, and Angular, with a strong foundation in microservices architecture and Clean Architecture principles. Experienced in Generative AI integration and AI-powered application development. Currently enrolled in the ITI Professional Program – Open Source Application Development Track.

TECHNICAL SKILLS

Languages: Go, JavaScript, TypeScript, PHP, Java

Backend: Go, Node.js, Express.js, Laravel, Django • RESTful APIs • JWT & OAuth • Microservices • gRPC • Kafka

Frontend: React.js, Next.js, Angular, Vue.js • HTML5, CSS3, Tailwind CSS • Framer Motion

Databases: MongoDB, MySQL, PostgreSQL, SQLite, Redis

Generative AI: Prompt Engineering • LLM API Integration • AI-Powered App Development • RAG Systems

Tools & DevOps: Git, GitHub, Docker, Linux, Postman, CI/CD

Concepts: OOP • SOLID Principles • Design Patterns • System Design • Clean Architecture • API Design

PROFESSIONAL EXPERIENCE

Go Backend Developer (Outsourced) • Hunter Douglas – Bright Sales Team

Jan 2026 – Present

- Develop and maintain Go microservices for an enterprise sales platform, contributing to Clean Architecture across handlers, services, and repository layers.
- Build and enhance RESTful APIs integrated with DocuSign, BigQuery, and SAP; participate in Kafka event-driven workflows.
- Collaborate on code reviews, debugging, and cross-team feature delivery in a production-grade codebase.

Frontend Developer (Freelance / Contract) • Rapid Delivery App

2025 – 2026

- Migrated a production React.js app to Next.js 15 with full TypeScript conversion, resolving server/client component boundary issues.
- Improved architecture, maintainability, and UI using Tailwind CSS, Framer Motion, and Radix UI in an Arabic-locale app.

EDUCATION

Professional Program – Open Source Application Development

2025 – Present

Information Technology Institute (ITI)

Coursework: Foundations of Programming • Data Structures & Algorithms • Computer Architecture • Operating Systems • Databases • Software Engineering • Web Development • Open Source Technologies

Key Projects

CarePulse – Medical Appointment Booking System | *Django, React.js, Tailwind CSS, JWT*

- Built a full-stack healthcare platform with custom auth, doctor/slot/booking models, email notifications, and paginated dashboards.
- Implemented a doctor review & rating system; migrated the frontend from Firebase to Django REST API.

E-Commerce Platform | *Node.js, Angular, MongoDB*

- Developed a full-stack e-commerce app with RESTful APIs, product management, and MongoDB integration.

Job Board Platform (Joblify) | *Laravel, Vue.js, MySQL*

- Built a multi-role job board (candidate/employer/admin) with Pinia state management, authentication, and CRUD operations.

Go ChatGPT Clone | *Go, Gin, OpenAI API, SSE*

- Full-stack AI chat app with SSE streaming, multi-provider model support, and persistent session history.

Go Event Booking REST API | *Go, Gin, SQLite, JWT*

- Complete event management API with JWT authentication, full CRUD, and SQLite persistence.

Bachelor of Computers and Information

2018 – 2022

Minia University

Coursework: Foundations of Programming • Data Structures & Algorithms • Computer Architecture • Algorithms • Operating Systems • Computer Networks • Database Systems • Discrete Mathematics • Software Engineering

LANGUAGES

• Arabic • English
